Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - who are they?	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the care about - what are they trying to achieve?	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way - what bothers them most?	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists - what needs to be solved?	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers

I am: an everyday online shopper who wants to buy products from home without visiting multiple stores

I'm trying to: browse products, compare prices and place orders quickly from one single platform

but: most e-commerce sites are too complicated, slow or overwhelming with too many options and confusing navigation

because: these platforms are built for large scale businesses and not designed keeping simple users in mind

which makes me feel: frustrated and I end up not buying anything or switching to a different app

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a regular user who shops online	a regular user who shops online	there's no simple platform that shows everything in one place	most apps are too complex for casual shoppers	confused and annoyed
PS-2	a small shop owner or admin	manage my product listings and track orders	I have no easy dashboard to add or remove products	most platforms require technical knowledge to manage	helpless and dependent on developers
