

Project Design Phase Problem – Solution Fit Template

Date	9 June 2026
Team ID	
Project Name	ShopEZ
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ Understand the existing situation in order to improve it for your target group.

Template:

Define CS, fit into CC	1. CUSTOMER SEGMENT(S) Who is your customer? I.e. working parents of 0-5 y.o. kids	6. CUSTOMER CONSTRAINTS What constraints prevent your customers from taking action or limit their choices of solutions? I.e. spending power, budget, no cash, network connection, available devices.	5. AVAILABLE SOLUTIONS Which solutions are available to the customers when they face the problem or need to get the job done? What have they tried in the past? What pros & cons do these solutions have? I.e. pen and paper is an alternative to digital notetaking	Explore AS, differentiate
Focus on J&P, tap into BE, understand RC	2. JOBS-TO-BE-DONE / PROBLEMS Which jobs-to-be-done (or problems) do you address for your customers? There could be more than one; explore different sides.	9. PROBLEM ROOT CAUSE What is the real reason that this problem exists? What is the back story behind the need to do this job? I.e. customers have to do it because of the change in regulations.	7. BEHAVIOUR What does your customer do to address the problem and get the job done? I.e. directly related: find the right solar panel installer, calculate usage and benefits; Indirectly associated: customers spend free time on volunteering work (I.e. Greenpeace)	Focus on J&P, tap into BE, understand RC
Identify strong TR & EM	3. TRIGGERS What triggers customers to act? I.e. seeing their neighbour installing solar panels, reading about a more efficient solution in the news.	10. YOUR SOLUTION If you are working on an existing business, write down your current solution first, fill in the canvas, and check how much it fits reality. If you are working on a new business proposition, then keep it blank until you fill in the canvas and come up with a solution that fits within customer limitations, solves a problem and matches customer behaviour.	8. CHANNELS of BEHAVIOUR 8.1 ONLINE What kind of actions do customers take online? Extract online channels from #7	Extract online & offline CH of BE
	4. EMOTIONS: BEFORE / AFTER How do customers feel when they face a problem or a job and afterwards? I.e. lost, insecure -> confident, in control - use it in your communication strategy & design.		8.2 OFFLINE What kind of actions do customers take offline? Extract offline channels from #7 and use them for customer development.

ShopEZ - Problem Solution Fit

1. Customer Segment:

Everyday online shoppers aged 18-35 who want to buy products from home without visiting multiple stores or dealing with complicated websites.

2. Jobs To Be Done / Problems:

Users need a simple way to browse products by category, add them to cart and place orders. Admins need an easy dashboard to manage products without technical knowledge.

3. Triggers:

Users get frustrated with complicated e-commerce websites and want something simpler. Admins need a quick way to update product listings without contacting a developer.

4. Emotions Before / After:

Before: Frustrated, confused and overwhelmed by complex shopping apps.

After: Comfortable, confident and satisfied with a clean and simple shopping experience.

5. Available Solutions:

Existing platforms like Amazon and Flipkart are too complex for simple use cases. ShopEZ provides a minimal and focused alternative built specifically for straightforward shopping.

6. Customer Constraints:

Users may have limited time and want quick checkout. They also need to trust the platform before entering personal details.

7. Behaviour:

Users browse by category, use search to find specific products, check stock and ratings before adding to cart, and place orders from the cart page.

8. Channels of Behaviour:

Users access ShopEZ through a web browser on desktop or mobile. Admins access the dashboard through the same platform after logging in with admin credentials.

9. Problem Root Cause:

Most e-commerce platforms are built for large scale businesses and are too complex for simple everyday shopping needs.

10. Your Solution:

ShopEZ is a clean and simple MERN stack e-commerce app with product catalog, category filters, search, cart, orders and an admin dashboard for product management.
